

## Testimonial

### Makuta Electric LLC

I have to say, I am very impressed with the product and your entire team. I will highly recommend your company to all my fellow electrical contractors in the area.

NEMA 3R LISTED  
10 YEAR WARRANTY

# LVTC

## Low Voltage Termination Cabinet

## Features

- Available for 120-600VAC in both Single-Phase and Three-Phase configurations.
- Designed to replace “flush to grade” junction boxes
- Ideal for sub-divisions to increase the number of termination spots per transformer.
- Lifting Eye Nuts provided on either side to allow for easy lifting with crane.

- Concealed Ventilation under lid to prevent condensation build-up.
- Lifting Eye Nuts provided on either side to allow for easy lifting with crane.
- Stainless Steel fasteners used to mount all internal and external components.
- Access door fastened with Penta Bolt and is also padlockable.

## → CONSTRUCTION

- Constructed from heavy gauge galvanized steel and electrostatic powder coated “Equipment Green” as standard.
- All doors constructed to prevent weather intrusion without the means of a rubber gasket

## → MEASUREMENTS

Height - 42"  
Width - 18"  
Depth - 20"

## → TYPICAL USES

Used in conjunction with Transformers to reduce number of road crossings, saving on wire and restoration.
